

## What students are saying about the course

*“To now have the tools to know that as Christians we have the truth and logic to back up our worldview has given me great confidence. I feel I now have the answers to the standard arguments against Christianity that have always given me great fear.”*

*“This course changed my perspective on the lost and gave me practical questions to ask unbelievers so that they realize their worldview does not make sense if God is not at the center.”*

*“This course is priceless. I would heartily recommend it to every Christian—in fact, I would want to make it mandatory—especially in an evangelism class.”*

*“I really appreciated the God-exalting nature of this class. It was exciting to learn about God every week and to walk out magnifying His Name. I learned that the confidence we have is that our faith is real and doesn't belong in an “upper story.” We have credible answers that effectively engage this generation.”*

*“Jay's class provides huge value and implications for evangelism. It gets to the foundation and heart of the Gospel, and provides great stimulation to love God with our minds.”*

## Worldview Evangelism Training

*Evangelism, Western Michigan University*

*The joy and privilege of sharing the message of life in Christ*

### Our strategy at Gospel for Life

GFL's Worldview Evangelism Training is a resource we provide to churches to help strengthen outreach and evangelism.

**Our goal is to equip believers to better fulfill The Great Commission.** By taking a short course in apologetics, Christians will see a marked increase in their confidence and effectiveness in evangelism.

### What is Christian Worldview?

**A Worldview** is a person's explanation and interpretation of the world, or view of life. The ideas that make up a worldview are not merely held intellectually; they shape the way a person lives. Worldview is the foundation for all of life's choices; whether beliefs, ethics, values, or behaviors.

**Biblical Worldview** states that God's truth found in His Word forms a 'blueprint' for every area of life—whether for relationships, economics, history, law, family, or church. The Christian seeks to have every area of life brought under the lordship of Christ.

**Biblical Worldview** lays the foundation for all thought—and as a result gives us a firm grasp on reality. Only the Christian Worldview fits the real world or “matches reality.”

By committing oneself to Christian Worldview, a believer will gain increasing confidence that there are biblical answers to all the important life questions.

### Advantages of Worldview Evangelism Training

- **Equips one to defend God's truth directly in effective evangelism.**

Believers trained in a cohesive view of biblical truth are best prepared to proclaim the Gospel in a world of manmade philosophies.

- **Enables one to confront error.**

The world's philosophies are “fortresses of error” which erode confidence in the authority of Scripture and the need for the Gospel. By confronting the deceptive philosophies that shut out the Gospel, believers wage an offensive against errors raised up against God's truth.

- **Instills boldness and confidence**

Just to know that all reality is based upon God's plan for His creation imparts boldness to the believer. There is great confidence and certainty in knowing that every truth we present in evangelism derives its meaning from God. Every truth claim we voice finds its meaning in relation to the character, and plan of an infinitely good, mighty, and holy God.

### What will you learn during Worldview Evangelism Training?

- Every argument about truth rests upon one of two presuppositions: *either man or God is the ultimate reference point!*
- The *Creator-creature distinction* is the starting point for all knowledge (Proverbs 1:7).
- Man's reasoning processes are corrupted by *spiritual darkness* (Romans 1:18-23).
- The evidence for a *Designer* is vital in today's battle for truth (Psalm 19).
- Mankind as the *image of God* is central in answering life's most important questions.
- Moral truth and ethics are an expression of *who God is*.
- Ultimate reality is nothing less than *God and His blueprint for mankind*.

Students will learn how to open the conversation and gain permission to share the Gospel. They will learn how to answer questions, and move past the most common objections to the truth of God. After taking this workshop, you won't have to back pedal or retreat into embarrassed silence when a tough objection is raised.
